How to Access BANA Word Lists on SpellPundit Free?

Why do I need SpellPundit Software?

When you register for BANA spelling bee, you get a list of 400 words. However, there is no associated information such as definition or part of speech. SpellPundit software has all the associated information for each word. For example, please see an entry in SpellPundit for the word hemophiliac. First, there is definition. Second, there is audio pronunciation. More importantly, roots of the word are given; hemomeans blood and -phil means like. By knowing these roots, speller can spell words such as hemophilic (one who likes blood), hemostat (blood clotting), bibliophilic (one who likes books). In fact, this is how one should prepare for the spelling bees, not by rote memorization.

≣ Level 1 Spelling №	Nodule
Set 2 Wo	rd 13 of 500 Edit UMaster Audio Previous Next
Word	hemophiliac
Pronunciation	hē-mə-ˈfi-lē-ˌak
